Mr. Gary Baughman  
Hazardous Waste Facilities Unit Manager  
Colorado Department of Health  
4210 East 11th Avenue  
Denver, Colorado 80220

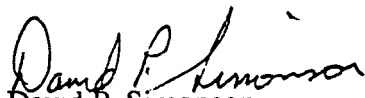

92-DOE-0315

Dear Mr Baughman

Closure Plans have not been prepared for Individual Hazardous Substance Sites (IHSSs) 206 and 208 within Operable Unit No 10 at the Rocky Flats Plant (RFP) EG&G has stated that the Resource Conservation and Recovery Act (RCRA) Subtitle C closure requirements, in accordance with 40CFR Part 265 Subpart G, for these IHSSs are fully addressed in the Rocky Flats Plant Interagency Agreement (IAG) signed by the Department of Energy (DOE), U S Environmental Protection Agency and the Colorado Department of Health on January 22, 1991. In addition, they have stated that the IAG has been incorporated into the RFP RCRA Operating Permit Corrective Action Section Thus, all applicable RCRA closure requirements have been, or will be, complied with in accordance with the IAG and or RFP Permit

We request that you review this matter and inform DOE in writing whether or not you concur with the opinion of EG&G as stated in this letter If you do not concur, please state the action required of the DOE Rocky Flats Office to comply with 40CFR Part 265 Subpart G or the equivalent under the Colorado Hazardous Waste Act It is the U S Department of Energy's desire that our activities are in compliance with all applicable federal and state laws and regulations

Sincerely,

  
David P Simonson  
Assistant Manager  
for Environmental Management
